

All my friends, they are very funny,  
All my friends make me smile and laugh  
We have fun when we get together  
In any kinda weather, we'll be friends forever  
Nothing could be better than

All my friends, they are very funny,  
All my friends make me smile and laugh  
We have fun when we get together  
In any kinda weather, we'll be friends forever  
Nothing could be better at all

We can run, having fun in the playground  
You and me together, nothing could be better than  
Girls and boys making noise, can you hear it?  
Friends together make me just wanna cheer 'cause..

All my friends, they are very funny,  
All my friends make me smile and laugh  
We have fun when we get together  
In any kinda weather, we'll be friends forever  
Nothing could be better at all

Every day, every hour, every minute  
There should be no limit to our time together  
But when we go then we know there's no sorrow,  
We will get to see our friends tomorrow.

All my friends, they are very funny,  
All my friends make me smile and laugh  
We have fun when we get together  
In any kinda weather, we'll be friends forever

Nothing could be better than

All my friends, they are very funny,

All my friends make me smile and laugh

We have fun when we get together

In any kinda weather, we'll be friends forever

Nothing could be better at all
