

Week 3 Topic Work

This Term we will be starting a new science topic – Electricity.

Complete the KWL grid below.

Know (what do you already know about electricity)	Want to know (write 5 questions about electricity that you want to learn about)	Learnt (What you have learnt from your research)

Once you have written 5 questions that you would like to find out, research 3 of these questions. Summarise and write the answers to your questions in the 'learnt' section of the table.
