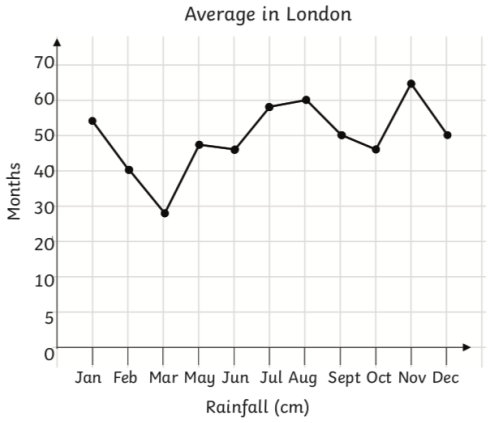
Year 5 Math Skills

LI: To read and interpret line graphs

Question 1: Explain the mistakes in this line graph showing average rainfall in London, which is drawn from the information in the table.



Month	Rainfall (mm)
January	54
February	40
March	28
April	38
May	48
June	46
July	58
August	60
September	50
October	57
November	65
December	50

Question 2: Explain why each of the following statements are true or false

- The lowest temperature is 5°C
- The difference between the highest and lowest temperature is 12°C.
- The temperature rose 11°C from March to May.
- The largest fall in temperature was from October to November.

Year 5 Literacy Skills

LI: To write a setting description

For example: (PLEASE DO NOT COPY)

Far away in the distance rested an enchanted mansion, right underneath the strangely stippled sky. The gargantuan windows valiantly pierced across the empty roads- not a single soul resided inside the gloomy, distasteful house.

Write you answer below:

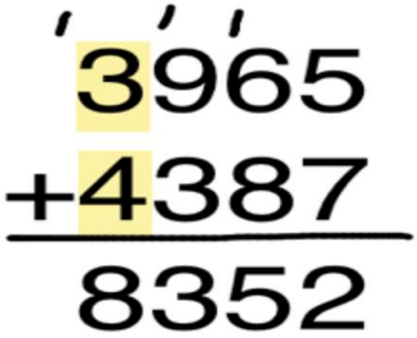
Year 5 Math Skills

LI: To solve 4-digit addition questions

Before you start, which of these additions do you think will have the smallest answer?
Which do you think will have the biggest answer?
Which do you think will have an answer between 5000 and 6000?

1. 4327 + 2348
2. 3285 + 2143
3. 6821 + 2734
4. 4276 + 1365
5. 5923 + 2544
6. 3842 + 2939



Friday 19th June 2020

Year 5 Literacy Skills

LI: To write a short narrative

Time Travel

One evening you go to your computer and accidentally press one of the keys you have never pressed before. Suddenly you are transported into a different time!

Your task: Write about where you travel to, what the place is like, who you meet and how you manage to get home again.
