You can choose to retell the events in the video, write what happens next or write your own story based on the clip!

Your narrative should include:

- Different types of sentence starters (ing verbs, ly adverbs, phrases that say where and when)
- Include dialogue that moves the story forward
- Ways of creating tension, suspense or curiosity for the reader
- A range of sentence structures: complex, compound and simple – for effect!

Use this key vocabulary in your writing:

eerie, sinister, mannequin, frightful, horrifying, suspicious, hush

Use this opening if you are struggling to start:

Snow was falling across the peaceful village as Alma skipped and jumped through the snow. She was enjoying the cold weather and had ventured into town to buy some groceries for her mother. However, as she wandered towards the supermarket, an eerie sensation fell over her.
