

L.I: To describe the features and weather conditions at the seaside

*Key words: Physical/human features, beach, cliff, coast, sand, weather, temperature, sunny, hot, cloudy, windy.*

This week you are going to bring together everything you have learned this term about the seaside and about seasonal changes!

You are going to pretend that you have taken a trip to the seaside and you are going to write a postcard to a friend. Tell them all about the different things you saw at the seaside (the different human and physical features) and what the weather was like there in the summer.

Here are some questions and pictures to help you think about what you might want to write in your postcard.

- What physical features did you see?
- What human features did you see?
- What was the weather like when you went?
- What was the temperature?
- Would your trip to the seaside be the same in the winter? Why or why not?
- What was your favourite part of your trip?
- What didn't you like about the seaside?

You can check the weather at the seaside online:
