

Year 1 Science Task

This half term our topic is 'Everyday Materials'. We will learn about different types of materials. We will learn the names of different materials including wood, plastic, glass, metal water, and describe their properties. We will begin to compare and group a variety of everyday materials.

Week 1 - Research

1. Watch some videos on the BBC and YouTube to learn about the names of everyday materials and their properties.

<https://www.youtube.com/watch?v=xOKr462HLc0>

2. Think about what you already know about materials. Go on a hunt at home for some objects. Can you name what material the object is made of? For e.g., my water bottle is made of plastic.

3. Think about how these materials are different or similar to each other.

- This could be in the way that they look.
- This could be the way they feel

After completing your research last week. Think about what material would be best to build a house for the 'Three Little Pigs' create your presentation (this can be in any format you like)

<https://www.youtube.com/watch?v=CtP83CWOMwc> – The Three Little Pigs story

Describe the materials you think would be best and why.
You can draw images and label it if you like.
