

Year 4: Humanities Week 2

L.I. To identify different global climatic zones and research the geographical features of a country in a tropical zone.

Success Criteria:

I can identify the various global climatic zones

(Arctic, temperate, tropical and Antarctic).

I can record geographical information relating to tropical and temperate zones

(sunshine duration, temperature and rainfall).

I can summaries what my findings show about these climatic regions.

Key vocabulary: weather, climate, Arctic, temperate, tropical, Antarctic, tropics, global zones

Today you will need to carry out some research about different climate zones. You will then focus on Brazil in particular and identify its geographical features. Make sure you include key vocabulary throughout your writing!

Task 1: Watch the video below and read the information found on the website.

What do you know about the following **climate zones**? Try to include as much detail as possible.

<https://www.funkidslive.com/learn/marina-ventura/climate-explorers/major-climate-zones-world/>

1. Tropical:

2. Arid:

3. Mediterranean:

4. Temperate:

5. Continental:

6. Polar:

Task 2: Now write **200 words** all about **Brazil** and its **tropical** climate.

Think about the following:

- Where is Brazil **located**?
- How do we know it has a tropical **climate**?
- What are the **weather** conditions like?
- How is the **environment** effected by this?

Include some interesting facts about Brazil and the Amazon Rainforest.
