

Year 1 Science Task - Week 2

This half term our topic is 'Plants'. We will learn about the different types of plants and the different parts of plants. We will look at plants in our environment and investigate the structure of plants.

LI: To identify and describe parts of a plant

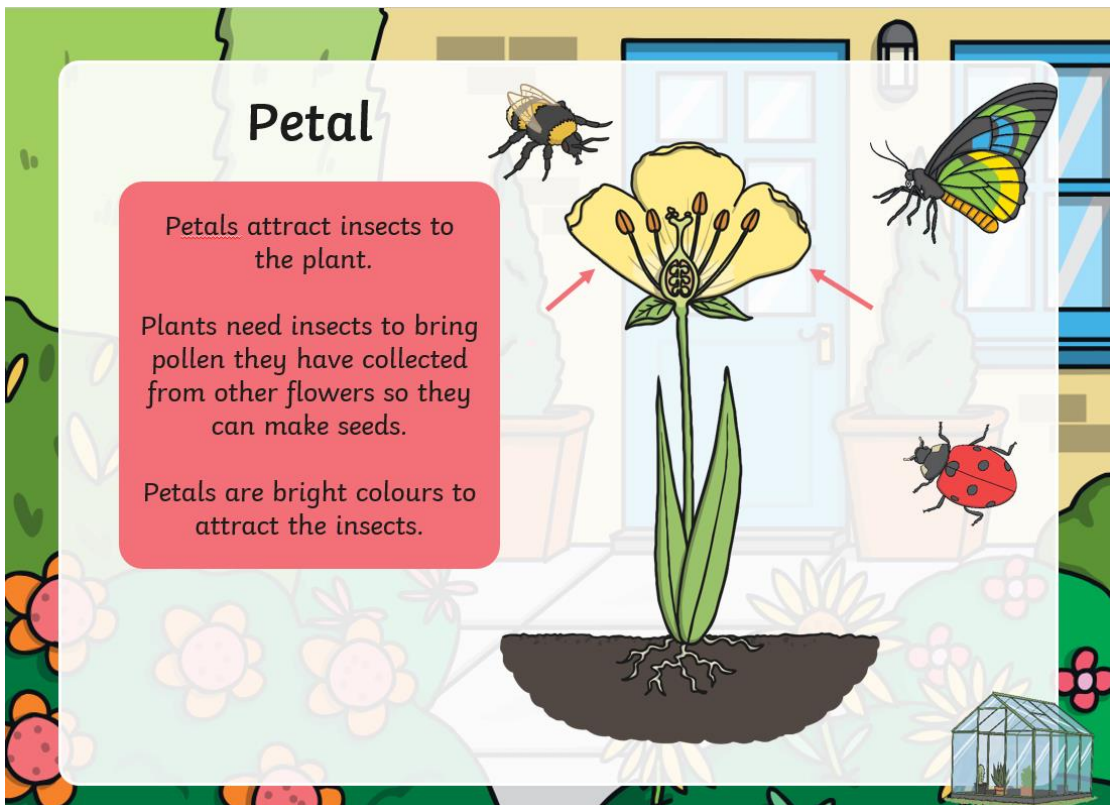

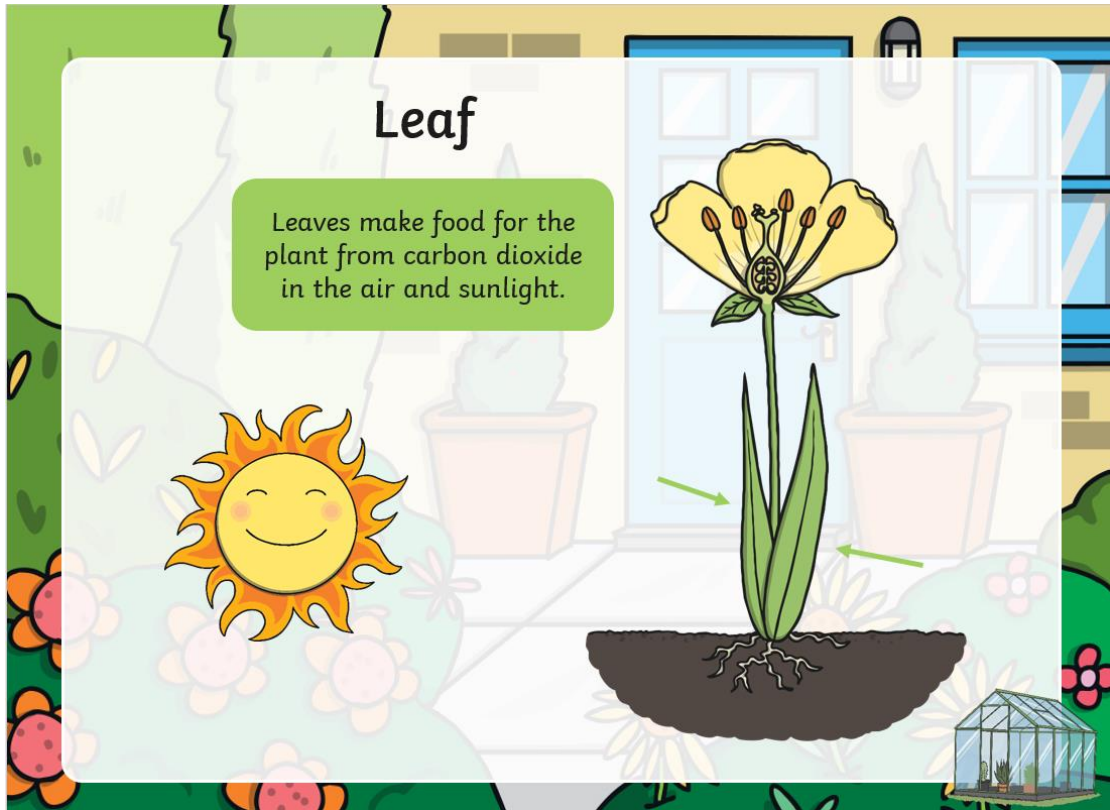

Task 1 - go on a plant hunt! Have you got any plants at home? You might see some plants in the park or on your street. Have a really close look at the plants. Talk to your adult about what you can see?

Task 2 - watch the video about the parts of a plant.

<https://www.bbc.co.uk/teach/class-clips-video/science-ks1-ks2-inrys-plant-workshop-parts-of-a-plant/zvdkpg8>

Read the slides about plants.

Roots

Roots absorb minerals and water from the soil. The roots also help the plant anchor in the soil and stay upright.

Stem

The stem transports water around the plant. It also holds the plant upright so it can get more sunlight.

Task 3 - can you match the definition to the part of the plant?

stem

petal

roots

leaf

attracts insects to
the plant

makes food for
the plant

transports water
around the plant

absorbs minerals and
water from the soil

Task 4 - Label the plant using the vocabulary.
