

Year 1 Science Task - Week 1

This half term our topic is 'Plants'. We will learn about the different types of plants and the different parts of plants. We will look at plants in our environment and investigate the structure of plants.

LI: To explain what I know about plants

Task 1 - what do you already know about plants. Create a mind map of anything you know about plants.

There is an example to get you started.

Leaves

Plants

Talk with someone at home about why plants are important to humans? What do forests make for us and plants?

Task 2 - can you name these common plants?

Task 3 - Can you label the parts of this plant? If you don't know them all don't worry - we will be looking at them in more detail next week.
