

Year 2 Science Task - Week 1

LI: To explore what we know about everyday materials.

Success Criteria:

I can say what I already know about everyday materials.

I can sort materials.

I can use scientific vocabulary:

Key vocabulary: *material, properties, sort, texture, rough, smooth, hard, soft*

Follow the link to explore materials found in the home:

<https://www.bbc.co.uk/bitesize/topics/zr5sgk7/articles/z9pgcdm>

Task 1: List 5 objects in your home and explain what material they are made from.

Object	Material

Task 2: Sort the pictures of objects into materials e.g. table and chair are both made from wood so they would be in the same section. Add some of your own ideas too!

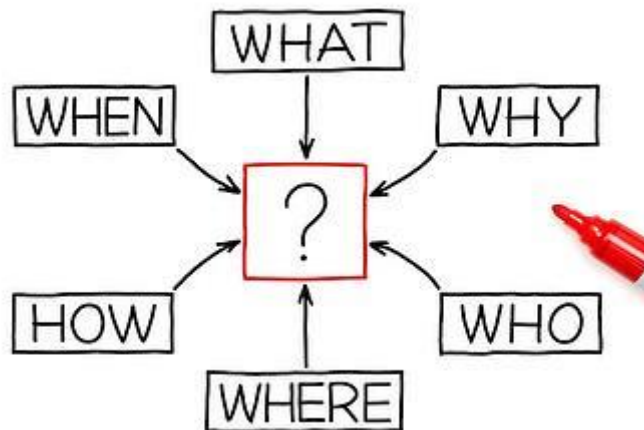

Glass	Wood	Plastic	Metal

Task 3: What would you like to find out about materials this term?
Write down 3 questions below.

- _____

- _____

- _____

Challenge question: Many objects can be made from more than one material e.g. a window can be glass or it can be plastic. Think of some more examples of objects that can be made from more than one material.
