

Year 5 Humanities

Week 2 Lesson 2

Global Resourcing

L.I. To communicate and present my findings.

I communicate my findings using appropriate vocabulary

I can use primary and secondary sources of evidence

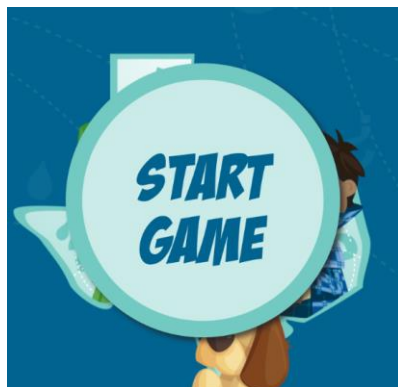

I can explain how humans can both damage and improve the environment

Key Vocabulary:

coverage surface area percentage proportion supply
demand filtration usage wastage
sanitation hygiene chlorine consequences
ecology cholera prevent

Task One

Have a go at the following game. Whilst you play, try to remember all the ways in which water can be saved around the house:

<http://www.hgsdwaterdetective.com/WaterDetectives/index.html>

How much water do you think the average UK household uses? Is this a lot compared to poorer countries? How could we save more water?

Task Two

Go around your own home and think of ways in which you could save water. Do some research online to find helpful suggestions. Try to come up with ten ways.

How to save water in my home:

- 1.**
- 2.**
- 3.**
- 4.**
- 5.**
- 6.**
- 7.**
- 8.**
- 9.**
- 10.**
